## Introducing... York County Access

**W**hat do you do when you need to see the doctor, but you can't find a ride? What happens when you have a dialysis appointment, but no car? How about when you don't have a ride to the grocery store or the pharmacy?

Introducing York County Access – a transportation service brought to you by York County and the City of Rock Hill. York County Access will get you where you have to be when there's no other way to get there.

York County Access is not the type of bus service that makes regular stops throughout town. It's what's called a dial-a-ride system.

York County Access is designed for people who have trouble getting transportation to essential services like medical appointments, the pharmacy and other necessary trips.

To schedule a trip, call the number below to reserve a seat at least two days in advance. The appointment scheduler will set the time for the bus to pick you up and take you back home.

Be sure to notify the scheduler of any special needs you have, such as being confined to a wheelchair. If you need help getting around, you may want to have someone ride with you who can

help you. You'll need to make two reservations if you'll be traveling with a companion.

The cost per trip is \$2.50 per person. Be sure you have exact change when you get on the bus. Let the scheduler know if your doctor or medical appointment is outside York County. The scheduler will arrange the trip and let you know the cost. There will be an extra charge for trips outside the county.

York County Access can get you to and from your important appointments. Remember – call two days in advance, and have \$2.50 in exact change.

York County Access... it gets you where you have to be... when there's no other way to get there.

## Boo-HaHa Scares Up Fun Downtown

**B**oo-HaHa is a great, safe alternative to trick-or-treating for the community. The evening is filled with candy, games and a costume contest. Not only is this evening overflowing with sweets, treats and entertainment, but it serves as a safe place for families to enjoy the first signs of fall.

### Activities Include:

- Safe trick-or-treating on Main Street provided by downtown and area businesses from 5:30 p.m. to 8:00 p.m.
- Children's costume contest for ages ten and under at 6:30 p.m. sponsored by WRHI and Interstate 107.

Please contact Candy Randall at **803/329-8756** for additional information regarding the event.

## Boo-HaHa

- Who:** The community...including children and families
- Where:** Main Street in Downtown Rock Hill
- When:** Wednesday, October 31, 2007  
5:30 p.m. - 8:00 p.m.

## The Arrival of 2-1-1

United Way is excited to announce the arrival of 2-1-1 to the York County area. 2-1-1 is an easy to remember telephone number that connects callers to information about local health and human services. 2-1-1 provides an easy, confidential and free way to obtain information on local services meeting the caller's specific needs. Calls are directed to trained operators, 24 hours a day, seven days a week. 2-1-1 is also useful during large-scale disaster, connecting callers to needed information (shelter sites, food and water distribution points, health information, etc). Help starts here – call 2-1-1!

**La ayuda  
comienza aquí.**

### Llame al 2-1-1

Encuentre información local para ayudar a un pariente, a un amigo, o a usted mismo, 24 horas al día, 7 días la semana. Es fácil, confidencial y libre.

- Programas para la comunidad
- Servicios de apoyo/psicológico
- Donaciones/Voluntariado
- Asistencia financiera
- Refugio de emergencia
- Recursos para ancianos
- Transportación

# Information On Stage 2 Mandatory Water Restrictions

For Rock Hill, Fort Mill, Tega Cay and York County Customers

Effective Friday, August 17, 2007, the City of Rock Hill, the Town of Fort Mill, York County, and Tega Cay enacted mandatory water restrictions. These water restrictions apply to all end users/customers that receive water from these wholesale providers.

## **Q: When can I run my irrigation or sprinkler system?**

**A:** Sprinklers, irrigation systems and other remote landscape watering devices are permitted two days weekly, staggered according to address, between the hours of 9:00 p.m. to 5:00 a.m., as follows:

Odd-numbered addresses, Wednesday and Saturday. This means irrigation can only run: Wednesday at 9 p.m. until Thursday morning at 5 a.m. and Saturday at 9 p.m. until Sunday morning at 5 a.m.

Even-numbered addresses, Thursday and Sunday. This means irrigation can only run: Thursday at 9 p.m. until Friday morning at 5 a.m. and Sunday at 9 p.m. until Monday morning at 5 a.m.

No sprinklers should run on any day between the hours of 5 a.m. and 9 p.m. Water runoff is strictly prohibited. Any signs of water runoff outside of designated watering times may result in a warning or fine. Customers are asked to take care to ensure sprinklers are properly adjusted to avoid unnecessary runoff into sidewalks and streets.

## **Q: Can I hand water my grass and plants?**

**A:** Yes, customers may hand water at any time of the day, on any day of the week. However, it is recommended that watering in the early morning or late at night is best to avoid evaporation. Hand watering includes hose sprayers, watering cans, buckets, etc. Use of low-volume sprayers is strongly encouraged. Water runoff is strictly prohibited. Any signs of water runoff outside of designated watering times may result in a warning or fine.

## **Q: Can I be fined for watering outside the designated times?**

**A:** Residential customers in violation of these restrictions are subject to fines starting at \$50 up to \$150. Fines for commercial customers run from \$100 to \$300. If customers repeatedly violate water restrictions, their water service may be terminated. If necessary, irrigation customers should immediately contact their irrigation maintenance contractor so that their system can be adjusted to run on the applicable days and times noted.

## **Q: Can I wash my cars and other vehicles?**

**A:** Washing vehicles or outdoor structures, pavement, parking lots or other surfaces is strictly prohibited. Customers are encouraged to use commercial car washes that use recycled water and/or use water in a more efficient manner.

## **Q: Why are commercial car washes allowed to run but I can't use my own water at home to wash my car?**

**A:** Some commercial car washes use recycled water, and therefore, operate in a very water-efficient manner. Customers who wash cars by hand at home tend to use more water than necessary and create unnecessary runoff. Although washing cars is not an essential use of a precious resource such as water, commercial car washes (that run on an everyday basis, unlike seasonal irrigation systems and periodic home car washing) do not contribute to our water system's peak during the summer months. Commercial car washes are allowed to operate during a Stage 2 drought in an effort to avoid any negative economic impact on our local business community. However, if conditions persisted for an extended period, the City would re-evaluate all customers who use large amounts of water in their service and manufacturing processes.

## **Q: Can I fill a new swimming pool? Can I fill my pool to maintain water levels?**

**A:** During a Stage 2 drought, customers can fill a new pool or refill existing pools only one time per drought period. For more information on filling or maintaining swimming pools, customers are asked to leave a message on the City's water hotline at **803/326-2450** to receive specific information about restrictions that apply during this drought.

During these severe drought conditions, the City of Rock Hill and its wholesale customers urge public water consumers to help maintain the health, sanitation and safety of our communities by adhering to these water conservation measures. Rock Hill water customers can call **803/326-2450** with questions about water restrictions or to report non-compliance. York County water customers should call **803/628 2919** and Town of Fort Mill water customers can call **803/548-3353**.

Should a Stage 3 drought be declared, more stringent water restrictions will be necessary. Please tune to City Channel 19, visit the city's website at [www.cityofrockhill.com](http://www.cityofrockhill.com) or call the city's water hotline at **803/326-2450** for current drought status information.

# Leaf Collection Tips

Rake leaves into a line along the curb. Please do not bag leaves; they must be delivered loose to the grinding facility.

Leaves will be collected by tractors or vacuum machines. We will try to use the leaf vacuums in all neighborhoods at least once a month.

Be sure leaves are separated from other yard debris and trash.

Try to avoid piling leaves in front of mail boxes or utility poles and guy wires.

Avoid piling leaves in front of storm drains or on top of utility accesses (water meters, irrigation systems, etc.).

Do not blow leaves into storm drains. Penalties with fines up to \$1000 will be enforced.

Blocking traffic lanes or creating line-of-sight hazards for motorists can result in liabilities to the homeowner.

During November, December and January, leaves will be collected every other week; your garbage and trash collections will remain on their regular weekly schedule.

Leaf collection begins Monday, November 5 with

Monday and Tuesday garbage collection, and Monday, November 12 for Wednesday and Thursday garbage collection.

Yard debris will NOT be collected during the weeks of Christmas and New Year's Day.

If you have any questions, please call the Customer Service Center at **803/325-2500**.
